

DisplayKEY is retiring!

Georgia MLS, in conjunction with GE Security, is retiring your Supra DisplayKEY. No more cradles! Improved service! More features!

We are holding an Exchange Event to make it easy for you to transition to the new lockbox key of your choice.

Existing eKEY holders do not need to participate in this exchange.

Camden/Charlton County – Tuesday, August 19th and Wednesday, August 20th

- [Camden/Charlton Board of Realtors® Office](#)
70 Hawthorn Lane, Suite B, St. Mary's, Georgia

Before you come to the Exchange Event, **you need to decide which key device you prefer**. You may choose the new **ActiveKEY**, or we can **add eKEY software to your smartphone** or PDA. If you already have a device on the certified devices list or have been thinking about getting a smartphone, you may want to consider making it your lockbox key rather than carrying two devices.

To help you make the right decision for the way you do business, you will find the following resources included in this flyer. For a **chart comparing your options**, see page 4. For a **list of eKEY-certified devices**, see page 5. For more on the **ActiveKEY**, see page 6. If you need additional help with your decision, please call Supra Agent Services at 1-800-676-6703.

You must attend the Exchange Event in person to make the trade. You cannot send an assistant, colleague or spouse in your place. We have reserved an appointment time for you based on your last name. **Check the chart on Page 3 to see where your company falls** for your scheduled appointment times.

To make the trade, you will need to have with you:

Your ID (Photo ID, Business Card, etc.)

Your **DisplayKEY and its cradle** plus the power cord (We're collecting it all.)

If you cannot attend this event, you need to make other arrangements with the local Supra Office. **Shortly after this event, your DisplayKEY will no longer work.**

If you are choosing ActiveKEY

Please allow at least 30 minutes to exchange your key, followed by a short instructional video. Check the chart on page 3 to see where your company falls.

No fees will be due at the Exchange Event. Billing at the new semi-annual rate will be due October 1, 2008. Insurance taken on existing DisplayKEYs will be carried over to the new ActiveKEY.

The ActiveKEY does not require a cradle to stay updated, **but it needs to be charged just like your cell phone**. Even though the ActiveKEY comes with a wall charger, optional car chargers will be available on site at the special event rate of **\$19.95 plus tax**, payable by check, Visa, MasterCard, or American Express credit card, or by debit card with the Visa or MasterCard logo (no cash or money orders).

To add **new** eKEY service to your smartphone

You will need to register for an eKEY-only appointment rather than coming at the time on the name chart. Please log on to www.supraekey.com, click on Meetings and Workshops, choose **GA – Camden** and the site closest to you from the drop down menu and then choose a time most convenient for you.

You will be asked whether you want **eKEY Basic** or **eKEY Professional Service**. eKEY Professional allows you to search Georgia MLS from your device, links Google maps to the listings, and delivers showing details to your device. eKEY Basic only includes the lockbox functions.

The monthly fee for eKEY Basic is **\$14.73 plus tax** (this is a savings of \$1.92 a month when compared to ActiveKEY!) The monthly fee for eKEY Professional is **\$25.78 plus tax**. You may set up your monthly eKEY fees with a Visa, MasterCard, Discover or American Express credit card, or by debit card with the Visa or MasterCard logo.

Save yourself time at the install by going to www.ekeymobile.com from your phone's browser and downloading the eKEY software. [Click here](#) for more download instructions.

Are your fees current?

Please make sure that your fees with Georgia MLS and with Supra are paid and current before coming to this event. If your fees are not current, you will not be able to exchange your key.

To check on your Supra account and/or to pay fees:

- Log on to the Supra website at www.supraekey.com and click the **Agent WebPAY** link for 24/7 self-service account management online.
- To use the 24/7 pay-by-phone option, call 1-877-699-6787, press option 2, then option 1.
- To speak to a Supra billing representative, press option 2, then option 8 during normal business hours.

Appointment schedule – Camden/Charlton County Board Office

If choosing an ActiveKEY, check the chart to see where your company falls. If you cannot come at the reserved time, please try to trade with another agent.

If you are adding eKEY software to your smartphone, please register for one of the eKEY-only appointments. Log on to the Supra website at www.supraekey.com and click the Meetings and Workshops link in the middle of the page to find your location, or simply [click here](#).

In either case, you will want to avoid scheduling showings close to your appointment time.

Time	Tuesday, Aug 19 th	Wednesday, Aug 20 th
8:30 AM – 10:00 AM	A - B	M – N
10:00 AM – 12:00 PM	C - F	O – R

Check for special offers on the Supra website at www.supraekey.com.

Supra eKEY software also works with certified Palm OS PDA's, including the Tungsten E2 and T/X and the Tungsten T, T2, T5, C, and E; Zire 31, 71, and 72; m505, m515, and LifeDrive.

ActiveKEY

ActiveKEY is the **first wireless lockbox key** designed by real estate professionals for real estate professionals. ActiveKEY **keeps itself updated 24/7** through frequent cellular connections to the Supra network. Virtually no attention is required from you.

When an ActiveKEY opens one of your iBoxes, you receive a **real-time instant notification on your key**. You will know right away when someone has entered your listings! For details, log on to KIMweb at the Supra website.

ActiveKEY is easy to use. Simply scroll through the ActiveKEY menu and follow instructions displayed in the display window. Enjoy **friendly features** including a **built-in flashlight** and a **brightly lit keypad and display window**.

The ActiveKEY comes with a power cord, a mini-USB cable and a **clip-on pouch with a pocket for your business cards**.

The ActiveKEY is a **dedicated lockbox key** manufactured by GE Security. It is not a cellular phone, nor a text-messaging device, and you cannot add software to the ActiveKEY.

The ActiveKEY **needs to be charged, just like your cell phone**. An optional car charger is available to make sure your ActiveKEY is on hand and ready to go whenever you need it.

For additional information on the ActiveKEY, log on to www.supraekey.com and scroll down to the ActiveKEY link in the center of the page.
